## SERVING IDEAS

*for your inspiration*

The salt pans on Ibiza were established almost 2.800 years ago by the Phoenicians, because of their particularly favourable geological conditions. They are still the source of this unique type of salt.

Today, the salt flats of Ibiza are a highly protected nature reserve. It was declared a World Heritage Site by the UNESCO in 1999.

Harvested by hand and characterized by its crystal structure in the form of a salt flower, you will enjoy the delicate crunch on the tongue before it melts in your mouth like a snowflake.

In terms of taste, it is surprisingly mild and delicate and it contains large amounts of minerals and trace elements. Our Fleur de Sel should be considered a veritable spice instead of a classic table salt.

## MARGARITA DELUXE À LA FLEUR DE SEL

1 shot of tequila, a dash of triple sec, freshly squeezed lime juice

Pour over crushed ice, stir. Moisten the rim of a glass with a wedge of lime. Gently spin the glass in SAL de IBIZA's *Fleur de Sel*, keeping the salt on the outside – thus ensuring a hint of salt with every sip.

Thank you, Jimmy Buffet!

We have really achieved a lot with our pots. Our customers have experienced how a few grains of SAL de IBIZA can transform a simple dish into something special. We have made our fine crystals a part of your life and deliberately named our *Fleur de Sel* "Cristal de la Vida". We aim to enrich the taste of life AND to support life.

That's why we help charitable organizations with the sales of our pots. With *Mar Blau* we support "Plastic Free Ibiza" and with *Isla Blanca* we donate to the "Ibiza Preservation Fund". With our Pink Pot *La Vie en Rose* we assist the world wide "Pink Ribbon" organization in their efforts to fight breast cancer.

 BIO

“Umami” dates back to 1908, when the Japanese chemist Kikunae found out what made traditional dishes so tasty. Neither sweet nor salty, not bitter and not spicy, but delicious by itself. This can be found in fermented garlic: “*Ajo Negro*”. Mixed with our *Fleur de Sel* it is perfect for sauces and dips. *Mar Blau* purveys nuances of licorice, vanilla, balsamic vinegar and caramel.

## SAL de IBIZA *Mar Blau*

It's hearty, strong flavour gives dishes the depth and harmony to round them off perfectly, e.g. for stews, ratatouille or pasta.

Su sabor fuerte y sustancioso, también aporta a los platos la profundidad y armonía para redondearlos a la perfección, p.ej., en guisos, pisto o pasta.

Der kräftige und herzhafte Geschmack verleiht Gerichten Tiefe und Harmonie, um sie perfekt abzurunden, z.B. in Eintöpfen, Ratatouille oder Pasta.

## IBICENCAN HERBAL INFUSION

“*Isla Blanca*” is a genuine “Ibicenco” product inspired by the “Hierbas Ibicencas” liqueur. We simply decided to replace its high sugar content and alcohol with our *Fleur de Sel*. The centuries-old recipe and the composition of local herbs make our “*Isla Blanca*” a special salt – it tastes and has the scent of Ibiza.

## SAL de IBIZA *Isla Blanca*

Excellent with Mediterranean fish dishes like seabream and St. Peter's fish or even a simple grilled chicken fillet. Try it also with yogurt and fruits.

Excelente para pescados típicos del Mediterráneo como la dorada, la lubina y el lenguado o para un filete de pollo a la plancha. Pruébelo con yogur y frutas.

Every sale of our Pink Pot “*La Vie en Rose*” helps the “Pink Ribbon” organization to support their work against breast cancer. Its key-ingredient is a superfine steam-extracted essence of the damascena rose.

#### SAL de IBIZA Molino

Molino is our coarse-grained salt for the mill; it resembles rock candy. The excellent water quality of the “Parc Natural de ses Salines d’Eivissa”, where SAL de IBIZA is harvested, is responsible for this high-quality sea salt.

Molino es nuestra sal mas gorda – para el Molinillo; se parece al caramelo de roca. La excelente calidad del agua del “Parc Natural de ses Salines d’Eivissa”, donde se cultiva la SAL de IBIZA, es la responsable de nuestra sal marina de tan alta calidad.

Molino ist unser grobkörnigstes Salz für die Mühle und ähnelt Kandiszucker. Die excellente Wasserqualität des “Parc Natural de ses Salines d’Eivissa”, in dem SAL de IBIZA geerntet wird, ist für unser hochwertiges Meersalz verantwortlich.

Sprinkle with *Granito 100% pur* –

### SAL de IBIZA *Granito 100% pur*

Our Granito (small grain) table salt is 100% natural untreated sea salt. It contains no additives of any kind whatsoever. Instead it is very rich in essential minerals and micronutrients. Granito contains no anti-caking or pouring agents. Nevertheless, it remains easy to pour simply by virtue of being slightly coarser than regular table salt.

Nuestra sal de mesa tipo Granito es una sal marina 100 % natural – sin ningún tipo de aditivos. Es muy rica en minerales y elementos base. Granito no contiene ningún antiapelmazante, manteniendo su fluidez simplemente por ser algo más gruesa que la sal de mesa corriente.

Unser Tafelsalz vom Typ Granito (Körnchen) ist ein 100 % naturbelassenes Meersalz. Es enthält keinerlei Zusatzstoffe. Stattdessen ist es sehr reich an natürlichen Mineralstoffen und Spurenlementen. Granito verzichtet auch bewusst auf Trennmittel. Damit seine Rieselfähigkeit dennoch erhalten bleibt, ist es etwas grobkörniger als herkömmliches Tafelsalz.

*Ingredient(!): 100 % natural sea salt, nothing else!*

Always comes salted – goes best with  
*Granito 100 % pur*.

mean, spicy chili peppers (optional)

60ml breadcrumbs  
or the equivalent  
of dry white bread

400g/14.12oz

Granito

Table Salt – large pourer

250g/8.82 oz

## PREPARATION

Chop ingredients up into little pieces and place an evenly mixed portion of the veggies into a blender, adding some of the peeled tomatoes (including the juice), olive oil, vinegar, breadcrumbs and SAL de IBIZA. Top up the blender with water (not too full unless you plan on re-decorating your kitchen).

Blend for about 2–3 minutes, gradually increasing the speed till full power. Hold lid tight, if not – see above! Look for the consistency to become smooth and creamy.

Season the first batch to taste by adding more salt or olive oil and perhaps breadcrumbs for texture.

Place this first batch into a larger container and repeat the steps above until all the ingredients have been blended and seasoned. You can make adjustments to each batch, evening the extremes until you reach the perfect blend for your taste.

Served chilled – breakfast, lunch or dinner... anytime!
